Description: Dovrin was a Cathar captain who led a group of Black Sun pirates during the Second Imperial Civil War.

Biography

In 137 ABY, the Cathar Captain Dovrin led a group of pirates that hijacked an Imperial shipping vessel in the 5709-DC Shipping Lane. Dorvin's intentions were to acquire new Thunderbolt Mark 7 blasters that the ship was transporting. In arguing with a C-series protocol droid, the pirate captain shot the droid with a blaster and threatened the life of Captain Piard. After hearing a noise in the background, Dovrin sent some crew—consisting of a Quarren, a Nautolan, and a Nikto—to investigate, only to find that they had been knocked out and replaced by Cade Skywalker, Jariah Syn, and Deliah Blue. Upon seeing them, Dovrin shot at Cade but it was deflected by Cade's green lightsaber; the reflected bolt fatally struck Dovrin in the chest.
