Description: As the leader of the Myneyrsh tribe living on Wayland, Roax welcomed the Jedi Master Kol Skywalker for his efforts to restore the planet made barely inhabitable by the war as the part of the Ossus Project. However, the Project was sabotaged by the One Sith and Wayland's inhabitants began to turn into the vongspawn, including Roax.

Afterwards, Roax confronted Skywalker and demanded he hand over Nei Rin, the Project's Master Shaper, for punishment as the Myneyrsh held her responsible for the event. However, Skywalker refused, and pushed Roax and the other Myneyrshi off his ship's landing platform as it left the planet, swearing to return and undo what had been done.

Many years later, when Kol's son Cade returned to the planet, Cade and his party were attacked by several Vongformed Myneyrshi. He informed his crew not to kill them, believing that one might be Roax, much to the dismay of crew member Jariah Syn. Shortly afterwards, and Skywalker and Syn were knocked unconscious while Deliah Blue was taken captive.
