Creatures D6 / Trolloc

Trolloc

Trollocs are vile twisted aberrations of life. They are monsters formed by crossing humans, aliens, and various animals to make vicious and mindless killers. No two Trollocs are the same due to their hybrid nature. They use only swords knives, axes, pole-arms and the like and some wear primitive plate mil. When faced with modern weapons they rarely withstand for long but their advantage lay in numbers. Nobody's sure where they come from or how they get where they do but they appear and appear in force and overwhelm an enemy. It is believed they serve a group of unseen dark force users. They are led into battle by fellow semi-sentients called Myrddraal and are also rumored to have been commanded by the malicious Dark Ajahdia.

Sentient: Trollocs are actually sentient, crossbreeds of animals and various aliens and humans forming a race of total hybridity. Though they are sentient they are incredibly primitive and are unable to use technology and are usually mindless in their killing frenzies.
