Creatures D6 / Ultralisks

Ultralisks

Ultralisks are massive predators which are fortunately fairly rare throughout the
Outer Rim and can be found on most planets with infestations of zerglings and/or
hydralisks. Their immense mandibles have a monomolecular edge, enabling them to cut
through armored vehicles and infantry alike. A handful of these creatures are believed
to have been responsible for the massacre of an entire Imperial garrison on Timul IV.

Type: Large predator
DEXTERITY: 2D
PERCEPTION: 2D+2
    Search: 3D
STRENGTH: 4D+1
    Brawling: 6D
