Description: Senju saber was the name of an umbrella-like arm prosthetic used by the Twi'lek Aneé-san after the Jedi known as the Grand Master cut off her left arm on the planet Olcatz. Her boss, the Anzellan Que-Dama, fitted multiple kanzashi sabers onto the senju saber that could be expanded and retracted, as well as swung at will during lightsaber combat. The sabers used kyber crystals previously stolen by the former Sith known as the Ronin.
